Current Team Member FAQ's

TODAY'S TOP 3 - April 8, 2020

1. **CORRECTION:** Team members who require it will still have access to showers in the lower level of 12 High Street but CANNOT get there via the 12 High Street connector hallway, which is blocked in both directions. You must walk outside and enter at 12 High Street, and if you need to get to the hospital from 12 High Street, you must go outside and use the 60 High Street entrance. A re-screen is required for everyone re-entering any facility.

Many team members have asked, why close access between 12 High and the Medical Center?

To reduce the risk of exposure to and spread of COVID-19, we have needed to restrict who enters into the hospital, under what circumstances, and using what personal protection. The math of blunting the spread requires that fewer people in a fixed area will result in fewer potential exposures. Universal masking for all those in the same fixed area further lowers the risk of transmission. Closing access between 12 High Street and the hospital limits the number of casual or non-essential staff who enter the hospital. We have determined which personnel are ESSENTIAL to be able to enter the hospital rapidly (e.g. an OB provider rushing to a delivery), and those individuals still have access to do so.

2. As we continue to make adjustments during these difficult times, Security is relaxing our usual parking enforcement rules at the Medical Center. Employees will be allowed to use Patient/Visitor lots but are asked to please park as far in the back as possible to allow ample parking for patients. The ground level of the parking garage has been designated for providers. Restrictions have also been lifted on
