TODAY'S UPDATE

Today is the last day team members who are not fully vaccinated or exempt may work onsite at any CMH facility. For those team members who work overnight, they are able to complete their shift. There are a large number of team members who are partially vaccinated, and those team members will be returning to work onsite after two weeks have passed since their final dose of vaccine. Please use every service standard to treat all of our team members with kindness and respect.

About 93% of our team members are fully vaccinated, a significant increase since July when approximately 68% had received their vaccination. We hope that our approach of education, access, and patience has helped to guide team members to their decision.
