TODAY'S UPDATE

Happy New Year to you all!

We've started moving patients in preparation for the Wednesday changeover in the T3 oxygen delivery system. Today, patients are being relocated from Y4 to Y3, from T3 to Y4 and from Y3 to M2.

The federal ambulance crew is doing daily runs and today transported a Bridgton Hospital patient almost all the way to Canada! Maine National Guard members were helping out in the Emergency Department this weekend and continue to do so and are also still deployed on all units as well. Please thank them for the important help that they're providing.

The Dec. 29 clarifications and updates to the visitor policy are now [online at cmhc.org](https://www.cmhc.org) and also available in a [PDF](#). To recap, students are not considered visitors and must be screened and fully vaccinated to enter our facilities; birth partners do not need a negative COVID test result at this time; and patients' care teams will decide whether it is appropriate for them to have outside food.
