

Dear Staff at CMMC

People may not always remember what you say and people will not always know what you think or look like but if there's one thing people will never forget it's what you do and the people you've helped and what you're doing right now. I will never forget. I may not know who is reading this letter I may never know what your name is, what your background is, and how old you are but I will know that you help a lot of people and I will never forget what you're doing for these people and what you've done for all the people you've helped. I watched a lot of superhero movies growing up and I know not all heroes wear capes and masks they could be anyone anywhere walking on the street but I do know that you are a hero. Thank you for everything you've done and for all the people you've helped.

Sincerely Alex Sampson

# CMMC Workers

Thank you for all that you do!

to all the staff at CMMC!  
I am so amazed and grateful for everything you do! Your passion, determination and faith is admirable. Because even when life sucks you're exhausted you continue to save lives or change them for the better.

Please stay safe and take care of yourselves. Because without you all we would be lost. Not only do you save lives but you restore my faith in humanity. I wish more people had the hearts you all do.

You do the disgusting, scary, boring things that not many people are willing to do. But it is truly amazing. No words can express my gratitude. You saved my best friend's life. Even when it looked like he had no chance of surviving. You gave me two more wonderful years with him.

Thank you  
Team B 

---

Dear Claire and staff at CMMC

Thank you for always being there for these people. I know that this event was not expected. Thank you for taking the time to help these people at this time. Just remember that you will always be loved and also thank you for all that you do for us

Sincerely

Ian Coltrane

Dear Rev. Carole -

Just a brief note to thank  
you for your chaplaincy as you  
try to comfort the families and  
friends affected by Wednesday  
evening's event. Collectively, Maine  
Fairing Planning sends you a hug in  
thought. George Hill, Wilentz, MA

Dear Medical Worker,

I am sending this letter to you as a thank you. I appreciate your bravery and willingness to step up and deal with these horrific injuries. I am sure the last 24 hours have brought some of the most brutal and horrific things we could possibly ask someone to deal with. However it is people like you and peers that help keep someone's daughter, father, or grandkid alive. And allow them to return home and see their family again. I really appreciate the work and lifesaving care you provide to these heartbroken families.

Sincerely,

Timothy Smith

Dear Claire and the staff at CMMC,

my students and I want to send our support & strength your way as you all deal with the trauma of the recent shooting in Lewiston,

Maine is such a small state, and while we want to believe "this could never happen here," it has, and we feel the loss & pain as well.

I wish for you all comfort, healing, love, amid the pain you are seeing. Thank you, thank you, thank you for choosing to be in the health care field - you are good people who work hard and are sometimes unappreciated.

Just know that our hearts are with you in this tragic time in Maine - sending our love from Senasport District High School.

Sincerely,

Christi Goocman

2017 Waldo County Teacher of the Year

Dear claire and staff at cmmc

During these hard times it may be difficult to do anything, even just breathe, but try your best, you're saving lives, every day you go to work and today may be hard but push through so you can see tomorrow, people will thank you for your hard work and dedication, even just for trying, because what your doing counts, one day you'll look back and be proud of yourself and the quality care you provided, and you won't regret a thing about it, it may be tough now but push through!

*Juanman*

Letter to Central Maine Medical Center,

Thank You

Dear Central Maine Medical Center Doctors,

We are very sorry that you have to deal with this.  
Thank you so much for all you do. I know that it must be hard to help people, but you certainly make a difference for everyone. I really feel bad for you guys and the people that have been hurt, Thinking of you all in this difficult time. Sending hugs your way.

Regards ~  
Roger

Roger,
