**Today's Team Member FAQ's**

**TODAY'S TOP 5 - March 18, 2020**

1. Please be on the lookout for scam emails. Unfortunately, some individuals are taking advantage of the current situation and sending out phishing emails in an effort to hack our system. Avoid clicking on links in unsolicited emails and be wary of email attachments.

2. At this time, we continue to stress handwashing and respiratory etiquette as the primary means of infection control. We are asking all employees to mask or wear protective equipment ONLY for isolation patients or if you have a mild respiratory illness. This is necessary in order to conserve resources and to prevent them from becoming limited in this crisis. Team members should direct all questions to their manager for the appropriate safety equipment for their area.

3. Currently, we follow CDC guidelines for COVID-19 testing criteria—for both patients and team members. Healthcare workers who have been **directly exposed** to a COVID-positive patient will be tested.

4. The CMMC Pharmacy remains open. To alleviate crowding and reduce risk, they are limiting customers to five at a time. A daily cleaning of the pharmacy space will take place at 1 p.m. and the pharmacy will be closed at that time.

5. Employees who receive paper checks will no longer be able to pick up their checks in the cafeteria, starting this week. The checks have been put in postal mail.
